Alumni Feedback Analysis Report 2018-19

Report on Alumni's Feedback on Curriculum

- a) Alumni feedback on the curriculum highlights the clarity and effectiveness of the learning objectives set for each course, providing clear direction for student learning and skill development.
- b) They appreciate the appropriateness of credit allocation, acknowledging that it accurately reflects the coursework's level of complexity and demands.
- c) Alumni also commend the relevance of the elective courses offered, noting their alignment with core subjects, which enhances the overall academic experience.
- d) Moreover, they emphasize that the curriculum effectively motivates both teachers and students for further study and research endeavors, fostering a culture of intellectual curiosity and academic excellence.
- e) Alumni praise the design of laboratory experiments, recognizing their role in deepening conceptual understanding and promoting hands-on learning experiences, which are invaluable for practical skill development.
