**Teacher's Curriculum Feedback 2021-22**

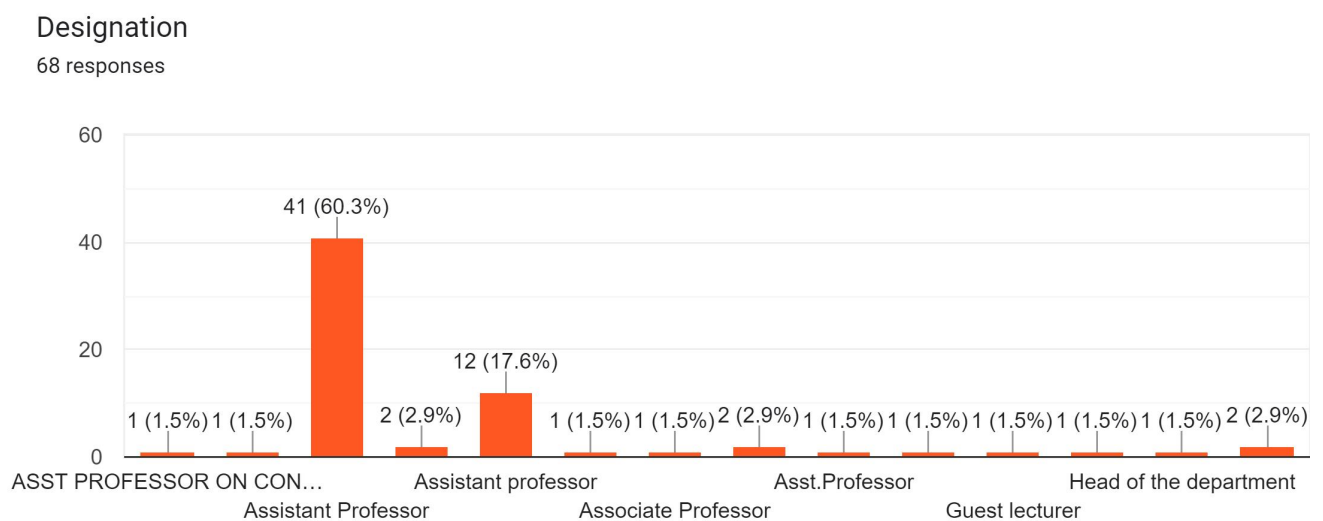

## Teachers' Curriculum Feedback Report 2021-22

The teacher's curriculum feedback survey, conducted online, gathered responses from 68 students. The survey comprised nine questions covering various aspects of our college, including the curriculum. Respondents were asked to rate specific items using a 5-level scale, with options ranging from "Poor" to "Excellent."

### Analysis of the Report

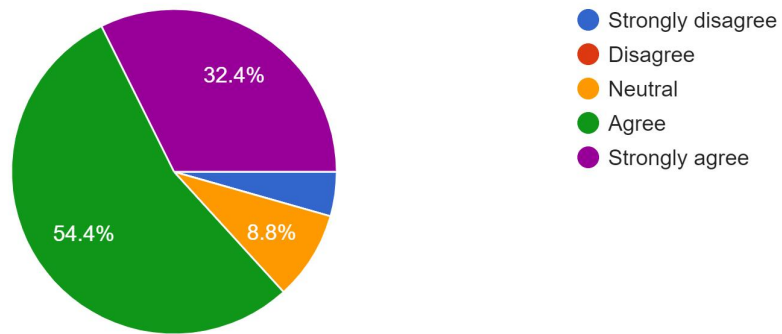

The Teachers' Curriculum Feedback Report for the academic year 2021-22 reflects several key observations. Teachers appreciated the overall curriculum design and its relevance to students' academic growth. They commended the alignment of learning objectives with industry requirements. However, the feedback also emphasized the need for more hands-on practical sessions to reinforce theoretical concepts effectively. Teachers expressed their enthusiasm for incorporating more interactive teaching methodologies and technology integration. Additionally, they highlighted the importance of continuous professional development opportunities to stay updated with emerging educational trends. The report underscores the teachers' dedication to enhancing the learning experience and their commitment to preparing students for future challenges with a dynamic and engaging curriculum.

**Below is a graphical representation of the student responses to each question.**

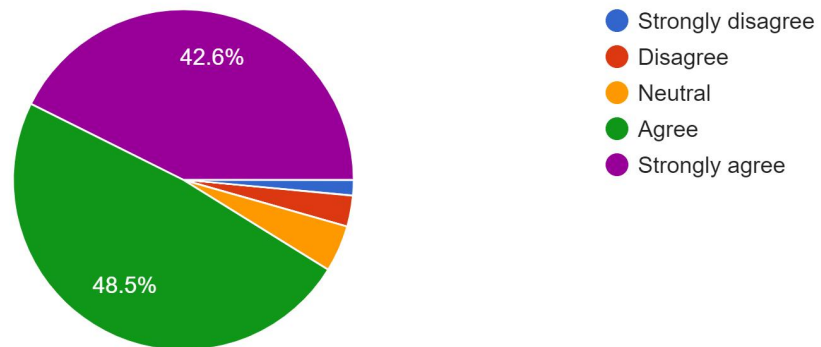

The curriculum is designed based on the needs of the stakeholders.

68 responses

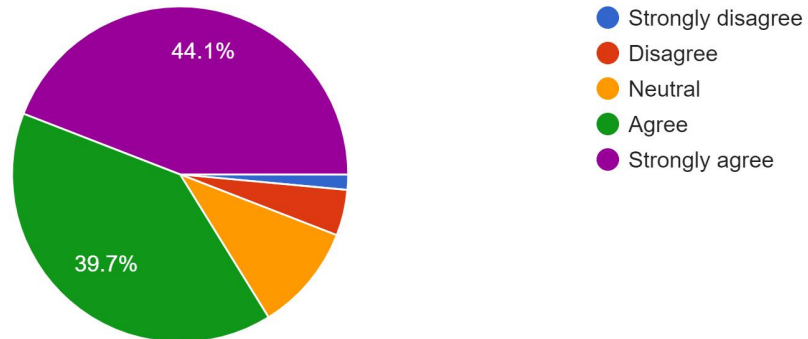

The learning objectives of each course in the curriculum are well defined and clear.

68 responses

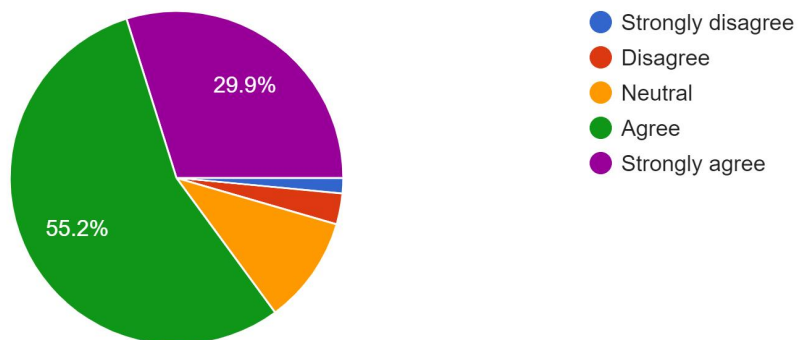

The sequence of the courses in the curriculum and the organisation of the content in different courses are appropriate.

68 responses

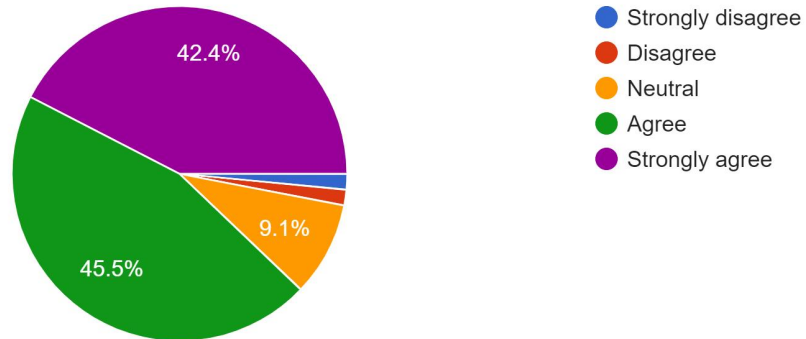

The allocation of the credits to the courses is appropriate with regard to the level of coursework required

67 responses

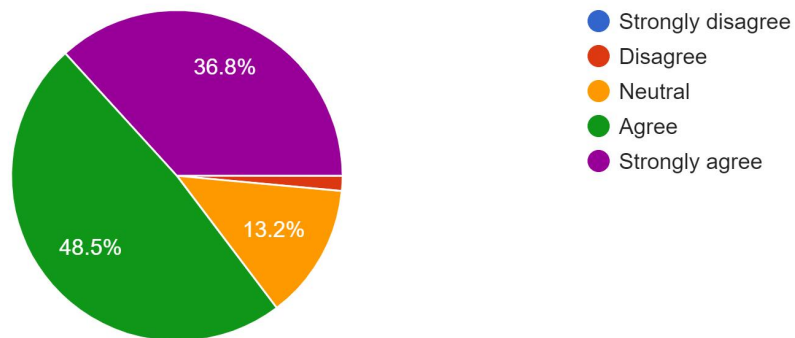

The electives offered are pertinent to the core subject and helpful in specialising in a functional area of the subject domain.

66 responses

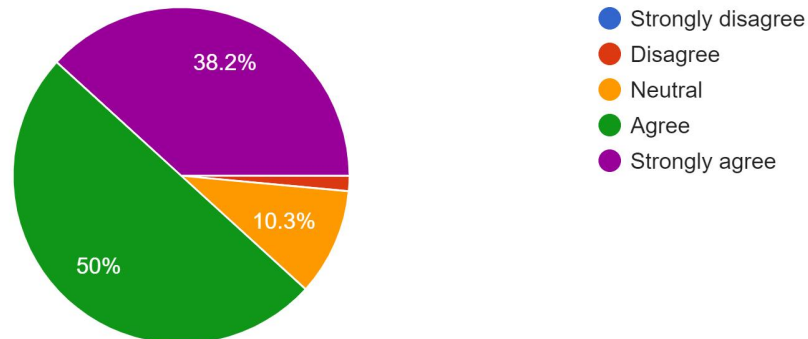

The curriculum sufficiently motivates both the teachers and students for further study and research.

68 responses

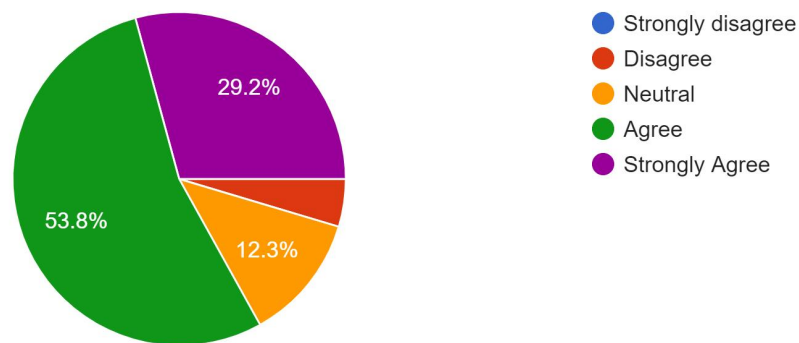

The syllabus is competitive and at par with the syllabi of the other institutions/ syllabus proposed by UGC for Choice Based Credit System (CBCS).

68 responses

The laboratory experiments are designed to enhance the understanding of the concepts and promote experimental learning.
