Thank you for your inquiry.

We are pleased to quote you the following:

Item	Description	No..of Users	Annual rate
1.	Academic management system *(SaaS) (Rs.23/- per user per month)	1750	Rs.4,83,000/-
	GST	18%	Rs.86,940/-
	Cess (Kerala Flood)	1%	Rs.4,830/-
	Total amount		<b>Rs.5,74,770/-</b>

\*Software as a service

One faculty account is free for every 10 student accounts.

**Benefits of Software as a Service model (SaaS)**

**Lower Initial Costs :** SaaS applications are subscription based. No license fees mean lower initial costs.

**Lower deployment Costs:** Having the SaaS provider manage the IT infrastructure means lower IT costs for hardware, software, and the people needed to manage it all.

**Redistribute IT Budget:** By outsourcing software functionality to a provider, the enterprise realizes a cost savings in infrastructure requirements and IT personnel knowledge requirements. This allows the enterprise to focus on core competencies. It also means that the cost savings from using SaaS applications can be flat out saved, or reallocated to boost productivity through other services.

**Shorter deployment time:** Potentially minutes as opposed to a phased implementation that could take months.

**Constant Upgrades:** Because the SaaS provider manages all updates and upgrades, there are no patches for customers to download or install. The SaaS provider also manages availability, so there's no need for customers to add hardware, software, or bandwidth as the user base grows.

**24/7 server uptime:** Stay connected with your institution 24/7.

Please see the product information below.

We will be happy to supply any further information you may need and trust that you call on us to fill your order, which will receive our prompt and careful attention.
