

# CONSULTANCY CHARGES FOR VARIOUS EQUIPMENT

| Sl. No | Analysis                                       | Academic Institution |         | Industries |
|--------|------------------------------------------------|----------------------|---------|------------|
|        |                                                | Research scholars    | Faculty |            |
| 1      | Powder X-ray Diffraction (PXRD)                | 350                  | 500     | 1000       |
| (a)    |                                                |                      |         |            |
| (b)    | Slow Scan                                      | 600                  | 1000    | 1250       |
| 2      | Surface area Analyser (BET)                    |                      |         |            |
| (a)    | 10 points                                      | 1000                 | 1500    | 2000       |
| (b)    | 47 points(adsorption and desorption)           | 2000                 | 2500    | 3000       |
| 3      | TPx                                            |                      |         |            |
| (a)    | Temperature Programmed Desorption (TPD)        | 1000                 | 1500    | 2000       |
| (b)    | Temperature Programmed Reduction (TPR )        | 1000                 | 1500    | 2000       |
| 4      | UV-Vis Absorption Spectrometry                 | 200                  | 400     | 600        |
| 5      | High Performance Liquid Chromatography (HPLC)  | 600                  | 1000    | 1500       |
| 6      | Gas Chromatography                             | 500                  | 750     | 1000       |
| 7      | Total Organic Carbon Analyser (TOC)            | 400                  | 600     | 1000       |
| 8      | Impendence Analyser                            | 200                  | 400     | 800        |
| 9      | Hall effect                                    | 200                  | 400     | 800        |
| 10     | Fourier Transform Infrared Spectroscopy (FTIR) | 500                  | 750     | 1000       |
| 11     | Laser                                          | 400                  | 600     | 1000       |
